

# UNITED WORKERS UNION

**We are the working people  
of Australia, coming together  
to take action and win secure  
jobs and a better future.**

## WHO WE ARE

United Workers Union is a powerful new union built from two proud unions coming together: United Voice and the National Union of Workers.

Our union is 150,000 workers across the country from more than 45 industries, standing together to make a difference.

Our work reaches millions of people every day – we feed you, educate you, provide care for you, keep your communities safe and get you the goods you need.

By coming together and taking action, we can transform the future for working people.
