

ADMINISTRATIVE REGULATION

AR 4

FINANCIAL STATUS – INDUSTRIAL MEMBERS

The National Executive approved the following Administrative Regulation at its meeting held on 1 July 2021:

An Industrial Member may be deemed by the National Executive to be financial in the circumstances where the National Executive reasonably believe that the member is unfinancial through no fault of their own. The National Executive will deem a member to be financial where:

- *The member remains employed or usually employed pursuant to the eligibility and industry rules set out in schedule 1 and 2 of the Union Rules*
- *The member's Scheme of payment remains in operation; and*
- *The member has not otherwise resigned from the Union.*

A member may appear to be unfinancial due to administrative and/or system issues which impact upon the record of their financial status. In addition, in the case of a member who makes payment of their membership contributions under a PRD Scheme, this may occur due to delays on the part of their employer in remitting payment or required information to the Union.
